# **Evenings** outside

Is there anything more pleasant than a balmy evening outdoors in summer? ANNA HOCHSIEDER presents language you can use to talk about sitting out at night.

MEDIUM PLUS

# The twilight hour

It was a **balmy** Friday evening in July at the end of what had been one of the hottest days of the year's **heatwave**. Thanks to the fact that it was **summer time**, the sun still hadn't set. Streaks of red and orange were beginning to **spread** across the sky. The **town square** was full of people **strolling along paths** or sitting on **benches**, enjoying the **gentle evening breeze**. Children **nagged** their parents to buy them an ice lolly from the **cart**. Teenage boys **lounged** against the church wall, **eyeing** giggly groups of teenage girls. A family was enjoying its supper **al fresco** on the green. Some of the older **folk** had placed chairs outside their front doors and sat chatting to the neighbours. Smoke **drifted** across from a back garden, where someone had **fired up the barbie** and was **flipping burgers**.

**Dusk** had descended when a woman none of us had seen before crossed the square, her heels click-clacking sharply on the **cobblestones**. All eyes were fixed on her. Even the teenage boys and the giggly girls had fallen silent. What was a stranger doing in the town at this hour?
